

Winter/Summer Arctic Fox

Audience

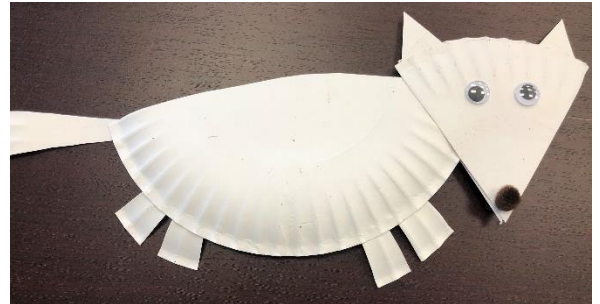

Designed for ages 5-12 years old.

Materials Needed

- Paper Plate
- Googly Eyes
- Pom Pom or Black Construction Paper
- Scissors
- Crayons or Markers

Length of Activity

30 minutes

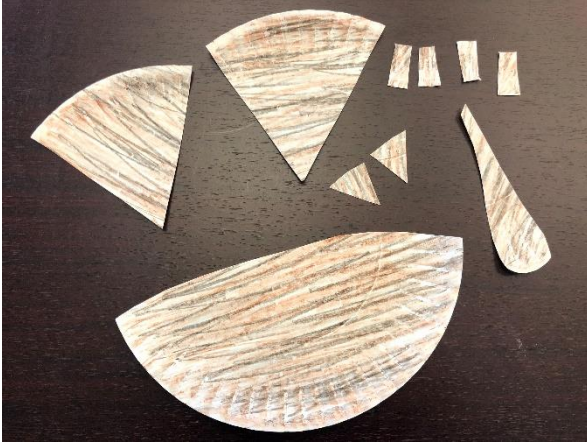

Procedure

1. Color one entire side of a paper plate brown, gray or a mix of the two.

2. Cut plate in half. Round off one side of the paper plate. This half will become the body.
3. With the other side of the paper plate, cut off a pie shape. Use the pie shape you cut off to make another pie shape the same size.

4. With the remaining scraps of plate, make a tail, four legs and two ears.

5. Place the body piece brown side up in front of you. Take one of the pie-shaped pieces and glue to the front of body, brown side up, to become the head.
6. Flip the project to the back/white side of the project.
7. Glue your two ears pieces onto the head with the white side up matching the white body.
8. Next take your second pie-shaped piece and glue on top of the first one so that the white side shows.
9. Glue on the tail and four legs matching the color with the side that is facing up.
10. Glue on googly eyes and a pom pom for a nose.
11. Flip the project over and glue on eyes and a pom pom on this side too!
