

Easy Bird Feeder

Audience

Designed for All Ages!

Materials Needed

- Toilet Paper Tube
- Peanut Butter (If peanut allergy, honey or a different nut butter can be used instead!)
- Bird Seed
- 2 Bowls
- Butter Knife
- String

Length of Activity

20 minutes

Procedure

1. Scoop some peanut butter into a bowl. This will prevent contamination in your peanut butter jar!
2. Pour some bird seed into the second other bowl.
3. Using a butter knife, spread peanut butter over the outside of your toilet paper tube covering the whole surface.
4. When completely covered, place your peanut-buttery tube into the bowl with the bird seed.
5. Roll the tube in the bird seed until all the peanut butter is covered in seeds.
6. Thread a piece of sting through the toilet paper tube and tie the string to itself to make a hanger.
7. Find a nice place to hang the feeder outside.
8. Watch the birds enjoy the feast!
