

TP Tube Bird

Audience

Designed for ages 5-12 years old.

Materials Needed

- Toilet Paper Tube
- Construction Paper
- Scissors
- Glue
- Googly Eyes (Optional)
- Crayon and/or Markers (Optional)

Length of Activity

30 minutes

Procedure

1. Cover your toilet paper tube with construction paper.
 - a. To do this, line up the edge of your tube with the edge of your construction paper.
 - b. Make a mark where the tube ends on the paper.
 - c. Using your mark as a guide, fold the construction paper to create a line.
 - d. Cut the paper on the line you created.
 - e. Glue the paper on to your tube covering it completely.
2. For the wings, fold a piece of paper in half.
3. Draw a wing shape on the paper.
4. Cut out the wing shape keeping the paper folded in half. This will give you two identical wings.

5. Fold the edge of the wing to create a small flap on each wing.

6. Put glue on your wing flaps and glue them to the body of your bird.
7. Fold a small piece of paper in half for your beak. On the folded edge, cut a triangle shape. This will create a diamond shape.
8. Glue one side of the diamond shape onto the body. This will give your bird a beak that opens and closes.
9. Fold a small piece of paper in half for your feet. Draw a foot shape on the paper. Cut out the foot keeping the paper folded in half. This will give you two identical feet.
10. Glue your feet to the body.
11. Add any additional decoration that you would like and your creation is FINISHED!
