

# Toucan Stained Glass

## Audience

Designed for All Ages!

## Materials Needed

- Construction Paper
  - Background Paper
  - Black Paper
  - Paper Scraps
- Colored Tissue Paper
- Yarn
- Hole Punch
- Scissors
- Glue
- Pencil

## Length of Activity

20-30 minutes

## Procedure

1. Hold your background sheet of construction paper with the long sides at the top and bottom.
2. Sketch a large toucan beak shape on the paper.
3. Cut out the beak without cutting through the sides of the paper.

- Cut out a large half circle from the black construction paper.

- Glue the black half circle along the edge of your background sheet. The half circle will overlap the beak hole a little bit.
- Cut an eye from your scrap construction paper and glue to the black half circle.
- Cut long strips of tissue paper.

- Flip over to the back side of your project.
- Glue the long strips over the beak hole. Use as many strips as it takes to completely fill the entire opening.

- Hole punch 2 hole along to the top of your project.
- String yarn through the holes and hang up in a window!
